ADVERTISEMENTS.

MR. SPENCER T. HALL, practical and consulting MESMERIST and PHRENOLOGIST, 59, Pall Mall (opposite Marlborough House), London, has a MESMERIC SEANCE, with SOMNAMBULIC and other EXPERIMENTS, every TUESDAY, WEDNESDAY, and FRIDAY, at twelve o'clock, to which the Nobility, Gentry, and Members of the polite and learned Professions are admitted by Cards, had of Mr. Ollivier, publisher and bookseller, Pall Mall.

A private SEANCE may be commanded, if desirable, at any other period of the day.

"Mr. Hall's experiments are too refined, elegant, and elaborate for a miscellaneous audience; but I may truly say that I never attended a lecture illustrated by phenomena so beautiful and satisfactory."—*Speech of Dr. G. Calvert Holland, author of "Vital Statistics," &c.*

"I have been most intimate with Spencer Hall from his very boyhood, and know that he loves whatever is true and beautiful, and scorns whatever is false or mean. The phenomena he has shewn us might furnish the finest studies for painting or sculpture."—*William Howitt, author of the "Rural Life of England," &c.*

"Allow me to express my very great obligation to you for enabling me (Mr. George Combe and Liebig being also present) to see your most interesting and important experiments in so satisfactory a manner. I would add my entire conviction of their genuineness, and of your being actuated by the love of truth alone in shewing them, if I thought such an assurance could be required by any candid witness of the phenomena."—*Letter of Professor Gregory, University College, Edinburgh.*

"I owe much to Mr. Hall for his disinterested zeal and kindness. He did for me all he could; and it was much to make a beginning, and put us in the way of proceeding."—*Miss Harriet Martineau's public Report of her Cure by Mesmerism.*

"The facts of Mesmerism are of a nature so startling, that we must be satisfied not merely of the integrity, but also of the sagacity of the operator, before we can yield them our belief. Both these qualities Mr. Hall obviously possesses in a remarkable degree. And when the patients are under his influence, as nothing in sculpture surpasses the beauty of their attitudes, so nothing in features irradiated by the habitual emotions of a noble and cultivated nature is more exquisite than the expression which lights up theirs."—*Bon Gaultier.*

"These phenomena startle you, because they are put too much in comparison with our more ordinary experience, instead of our higher knowledge. Yet as I have watched with the closest scrutiny the experiments by which Mr. Hall has developed them, my interest in them has been intense, and my satisfaction and delight equalled only by my conviction of their importance."—*Public Speech of Dr. Dick, the Astronomer.*

* * A Conversazione every Friday Evening at Eight o'clock.
Cards as above.

PERMANENT DRAWING CHALK

IN CEDAR, IN VARIOUS COLOURS.

E. WOLFF AND SON beg to apprise Artists and Amateurs that they have, by the introduction of great improvements in their CRETA LEVIS, enabled it to be used the same as the ordinary Pencil; and effects can now be produced equal to water-colour drawings, without the use of water or any other fluid, the various colours, blending together with perfect harmony, beauty, and richness. It can be cut to a fine point, and is thus capable of giving a very delicate outline. For sketching from nature, the great advantages resulting from the adoption of the CRETA LEVIS must be obvious, as without the use of water, palette, brushes, &c. all the various tints can be obtained with a truthfulness that cannot be surpassed, thus superseding every other method in general use.

The drawings may be carried in a Portfolio with safety, as, unlike other Crayons, they will neither rub off, nor suffer injury by coming in contact with the usual contents of a Portfolio.

The CRETA LEVIS will not be affected by heat or change of climate; and, by its compact form, may be carried any distance without the slightest inconvenience. To be had of all respectable Stationers, and of the Manufacturers, at the following prices:—

Leather box, containing a set of 12..	7s. each.
— — — — — 18..	10s. —
— — — — — 24..	14s. —
— — — — — 36..	21s. —
In sets as above, without a box, at	6s. per doz.
Lake and Cobalt	12s. —

* May be had also in Crayons without cedar, in sets as above, at 6s. per dozen, box included.

WOLFF & SON beg to recommend their newly-invented SKETCHING PENCILS, or Permanent Black Chalk:—

B B, Very black, for foreground; H B, Middle tint; N, Neutral tint, for distance. Price 6s. per dozen.

These Pencils are peculiarly adapted for sketching heads and landscapes, and are capable of producing a beautiful effect with very little labour. Having an adhesive quality, the drawings may be transmitted without fear of injury.

** Wolff & Son are desirous of opening an Agency with respectable Country Booksellers and Stationers for the sale of the above. Manufactory, 23 Church-street, Spitalfields, London.

NEW ENVELOPE.

IN consequence of the great variety of counterfeit Envelopes of ROWLAND'S KALYDOR, and other disreputable means resorted to by unprincipled individuals for imposing on the public their highly pernicious compounds, under the title of "KALYDOR," the Proprietors and sole Preparers of the Original and Genuine Preparation, acting under a sense of duty, and regardless of expense in the attainment of their object—THE PROTECTION OF THE PUBLIC FROM FRAUD AND IMPOSITION, have employed those celebrated artists, Messrs. Perkins, Bacon, and Co. who have succeeded, at great cost, in producing from a steel plate a NEW ENVELOPE of exquisite beauty.

It comprises a highly-finished engraving of the GRECIAN GRACES standing on a classic pedestal, on each side of which is a rich profusion of flowers springing from an elegant cornucopia; these tastefully blending with Arabesque scrolls and wreaths, encircle the Royal Arms of Great Britain, surmounting the words

ROWLAND'S KALYDOR,

The **TRUE GERMAN FLY POISON**. This preparation speedily clears the house of those troublesome insects, Flies, Gnats, Wasps, Beetles, &c. and is perfectly innocuous if taken accidentally by children,—is indeed free from all the properties so common, and so objectionable in other fly poisons—it is neither sweet nor glutinous, so that it will neither attract more flies to the house, nor cause those in it to smear and damage valuable articles of furniture after tasting, and as it is perfectly harmless, except to those insects, it may be kept in the pantry, their great resort.—Price 1s. per bottle.
